FOR IMMEDIATE RELEASE

Japanese Company to Lead Susucoin Development and Management
Shinoma will continue development of cryptocurrency Susucoin

NAGOYA, AICHI-KEN, November 24 — Nagoya-based Internet company Shinoma (株) Co., Ltd. will assume all development and management efforts regarding free-speech cryptocurrency Susucoin to further the coin's core values of privacy, anonymity, and security in a financially sustainable manner in the vibrant and exciting Japanese virtual-currency scene.

As such, Shinoma (株) Co., Ltd.'s capital will be used to absorb Susucoin's development and management costs with the intention to support and maintain Susucoin's original mission and vision.

Development and management plans of Susucoin will proceed as announced without changes. Future announcements will continue to be disclosed through Susucoin's website [susukino.com] and its social media accounts.

About Susucoin

Susucoin is a proof-of-work cryptocurrency designed with added transactional storage capacity for the purpose of archiving data and securing free speech. By uploading data to the blockchain, Susucoin enables the archival of thoughts and ideas forever.
